

BRUSHMASTER®

HERBICIDE

Superior brush and weed control with flexibility in application methods and schedules.

Economically priced, low-odor Brushmaster® can be applied almost any time of the year. Whether applied foliar, basal bark, cut stump or frill, Brushmaster provides efficient and dependable brush and broadleaf weed control in fencerows, along roadsides, in firebreaks and around buildings.

Cool-season turfgrasses are tolerant to applications of Brushmaster when mixed with water for foliar treatments. So Brushmaster will not strip treated areas of erosion protection like mechanical methods or chemical sterilants.

And Brushmaster breaks down rapidly in the soil, making it a sound choice for brush control.

Brushmaster is tough on brush and broadleaf weeds. Brushmaster is a low-volatile ester formulation containing a Trimec® herbicide complex for synergistic activity among active ingredients and maximum penetration into plant tissue for root kill.

Versatile Brushmaster provides an effective, economical solution to your toughest brush problems – any time of the year!

Brushmaster and Trimec are registered trademarks of PBI/GORDON CORPORATION.

RECOMMENDATIONS

For post-emergent control of woody brush and broadleaf weeds in fencerows, firebreaks, farmyards, roadsides, airports, rights-of-way, industrial sites and similar non-crop areas.

ACTIVE INGREDIENTS:

Isooctyl (2-ethylhexyl) ester of 2,4-dichlorophenoxyacetic acid . . .	18.85%
2-ethylhexyl ester of (+)-R-2-(2,4-dichlorophenoxy) propionic acid	9.24%
Dicamba: 3,6-dichloro-o-anisic acid . .	3.01%
Inert Ingredients	68.90%

EPA Reg. No. 2217-774

PACKAGING:

Plastic U.S. quarts: 12 X 1 per case:	
shipping weight	30 lbs.
Plastic U.S. gallons: 4 X 1 per case:	
shipping weight	38 lbs.
